What's New in Curipod

New ways to generate lessons, make them delightful, and align them to your curriculum.

Lesson generation

New ways to generate lessons that work
— built around the skills and formats
your students need.

Text Dependent Analysis

Revision & Editing practice

Take a Stand — grammar practice

Claim, Evidence & Reasoning

Math word problems

Full lesson generator, updated

Text Dependent Analysis

Assess reading skills through writing - with immediate AI feedback on every student response.

- Choose the analysis skill you're targeting, and the rubric
- Students write, then get feedback tied to the rubric
- Science and Social Studies equivalents use the same flow but focus on CER

Join at **curi.live** with pin: 

Curipod

What can you infer about what the Rangers' first World Series championship meant to fans in Arlington? Support your answer with evidence from the text.

Curipod AI will give you a **score and feedback!**

**Earn 2
Points**

+1 Correct response
+1 Evidence from the text

A Parade That Filled
Arlington

Lesson generation

Revision & Editing Practice

Generate sentence-level revision and editing.

- Targeted revision and editing questions
- Whole-class review of the class's answers, one item at a time
- Runs in ten minutes as a warm-up or exit ticket

 Try again!

Join at curi.live with pin: 

Revise this sentence:

Great white sharks are fast predators, they can swim up to 25 miles per hour.

Enter

Can you score a perfect 5? 🏆

AI will score your sentence on:

-  content
-  organization
-  language

Lesson generation

Take a Stand

Grammar practice as a live position-taking activity. Every student commits to an answer before the discussion starts.

- Students choose a side and justify it in grammatically-correct sentences
- Make grammar practice fun!

Join at **curi.live** with pin: 

Curipod

"Are your cousins the wildest part of every family gathering?"

👉 Make Your Case

🏆 Score: Use their/there/they're while defending your stand; write many sentences —each correct, meaningful use earns a point.

💡 Hint:

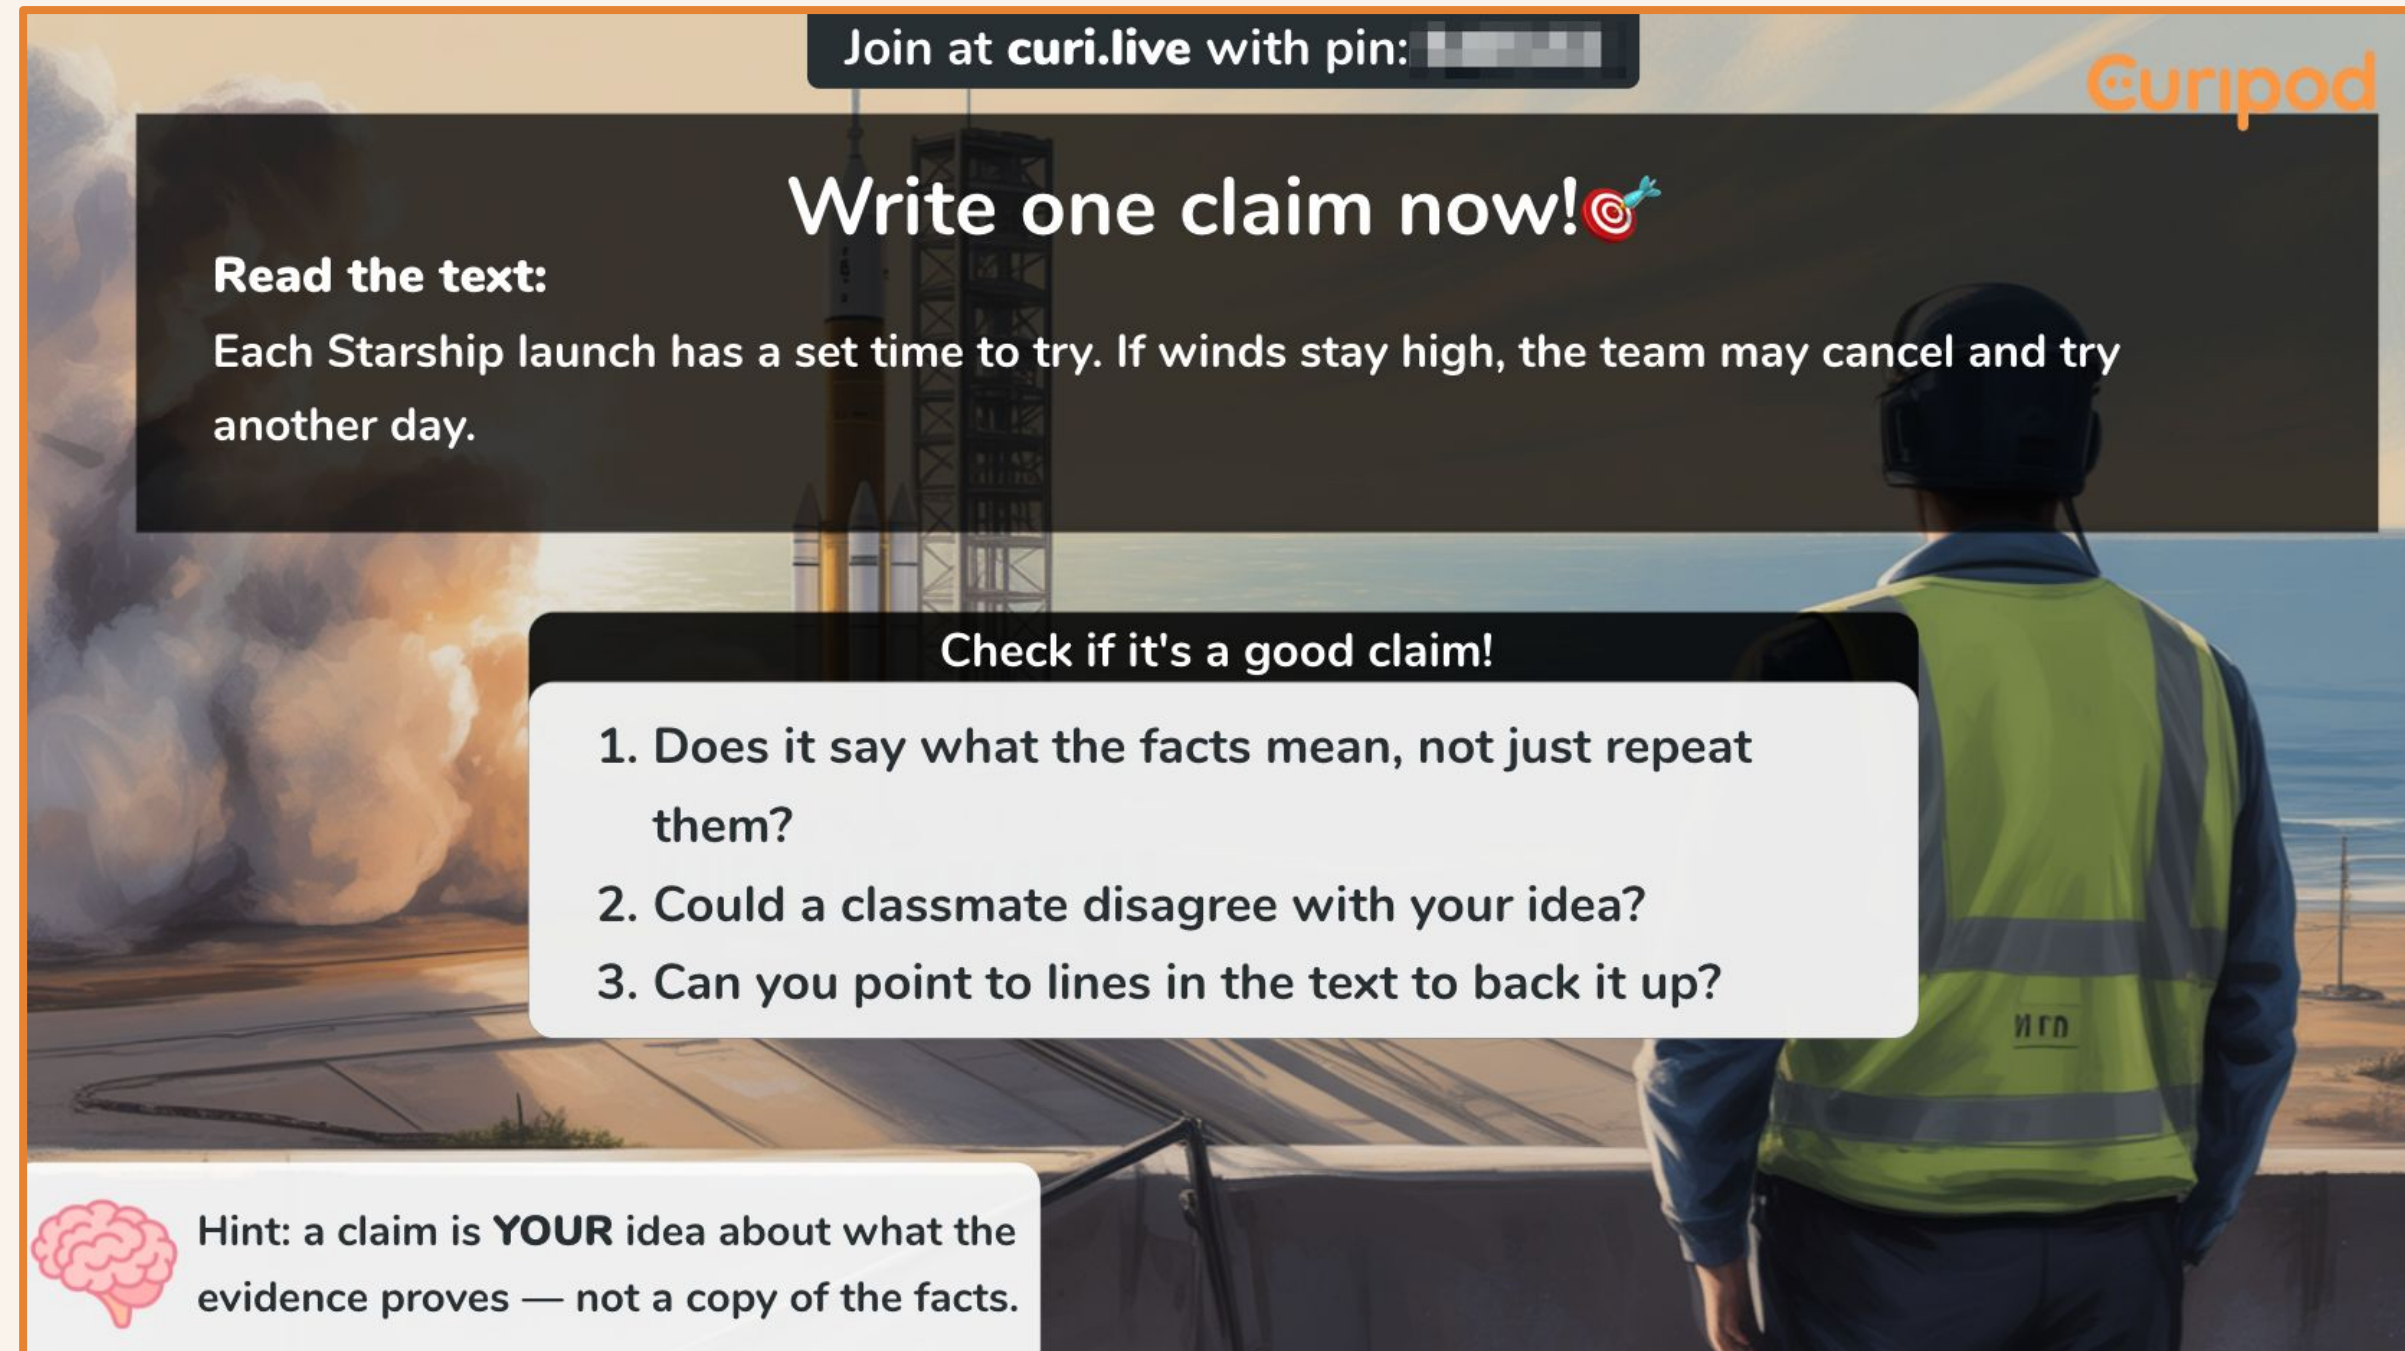

- They're always the ones...
- Their jokes make everyone...
- There at the center...

Claim, Evidence & Reasoning

Dive deeply into the part your students need to practice: making a claim, providing evidence, or connecting claims and evidence with reasoning.

- Each option runs in 10 minutes to provide quick and targeted practice
- Available for ELA, Social Studies, and Science

The screenshot shows the CuriPod interface for a Starship launch activity. At the top, a dark banner contains the text "Join at curi.live with pin: [redacted]" and the CuriPod logo. Below this, a large text box reads "Write one claim now!" with a target icon. To the left, a smaller box titled "Read the text:" contains the text: "Each Starship launch has a set time to try. If winds stay high, the team may cancel and try another day." In the center, a box titled "Check if it's a good claim!" lists three questions: "1. Does it say what the facts mean, not just repeat them?", "2. Could a classmate disagree with your idea?", and "3. Can you point to lines in the text to back it up?". At the bottom left, a pink brain icon is next to a hint: "Hint: a claim is **YOUR** idea about what the evidence proves — not a copy of the facts." The background of the interface is a photograph of a Starship rocket on the launch pad with a person in a high-visibility vest and headset in the foreground.

Write one claim now! 🎯

Read the text:
Each Starship launch has a set time to try. If winds stay high, the team may cancel and try another day.

Check if it's a good claim!

1. Does it say what the facts mean, not just repeat them?
2. Could a classmate disagree with your idea?
3. Can you point to lines in the text to back it up?

 Hint: a claim is **YOUR** idea about what the evidence proves — not a copy of the facts.

Math Word Problems

Generate word problems by skill and topic, with students explaining their reasoning rather than only submitting an answer.

- Students show their thinking in writing and get personalized feedback
- Surface common misconceptions to the whole class

Lesson generation

Full lesson generator

Rebuilt to give you more say before generation and less cleanup after it.

- Check the lesson sequence and structure before it generates
- Pre-set options: novel study, small group intervention, etc
- New AI models for improved speed and relevance

 Curipod

Grade 5 ELA · 30 minutes

Learning objective: Evaluate two possible theme statements for a short story and defend the stronger statement using story details.

I've added a short **Curipod AI-written practice passage**, "Maya's Missed Goal," for students to reference.

- **What Makes a Victory Feel Best?** → poll → 3 min
- **Topic or Theme?** → content slide → 4 min
- **Choose Maya's Stronger Theme** → short answer → 5 min
- **Which Statement Is Best Supported?** → multiple choice → 5 min
- **Defend Your Choice** → turn and talk → 4 min
- **Make the Case for the Best Theme** → short answer → 6 min
- **Theme Check-Out** → multiple choice → 3 min

You can keep chatting to revise anything, or generate the lesson now.

Making lessons delightful

Small controls that change what happens in the room — who writes, who listens, and who's watching the score.

Disable Pasting & Disable Writing Assistance

Read aloud with different accents

Multiple choice questions

Scoreboard for SCRs and ECRs

Disable Pasting & Writing Assistance

Lesson-level toggles that keep written responses the student's own work. [Read more here.](#)

- Disable Pasting blocks pasted text into response fields
- Disable Writing Assistance turns off autocomplete-style help
- Set per lesson, so practice and assessment can differ

Classroom

Stay Organized

General

Require real names

Require your participants to write their real name. Real names are only visible to you as the host.

Automatic Content Filtering

Automatic Content Filtering uses our AI system to filter inappropriate student responses. You can see all filtered responses in the Moderation Tool.

Disable pasting

SCHOOL PLAN

Prevent students from pasting text into response fields on their device.

Disable Writing Assistance

SCHOOL PLAN

Disables writing assistant helpers such as Grammarly on your students' devices.

Music theme

PREVIEW

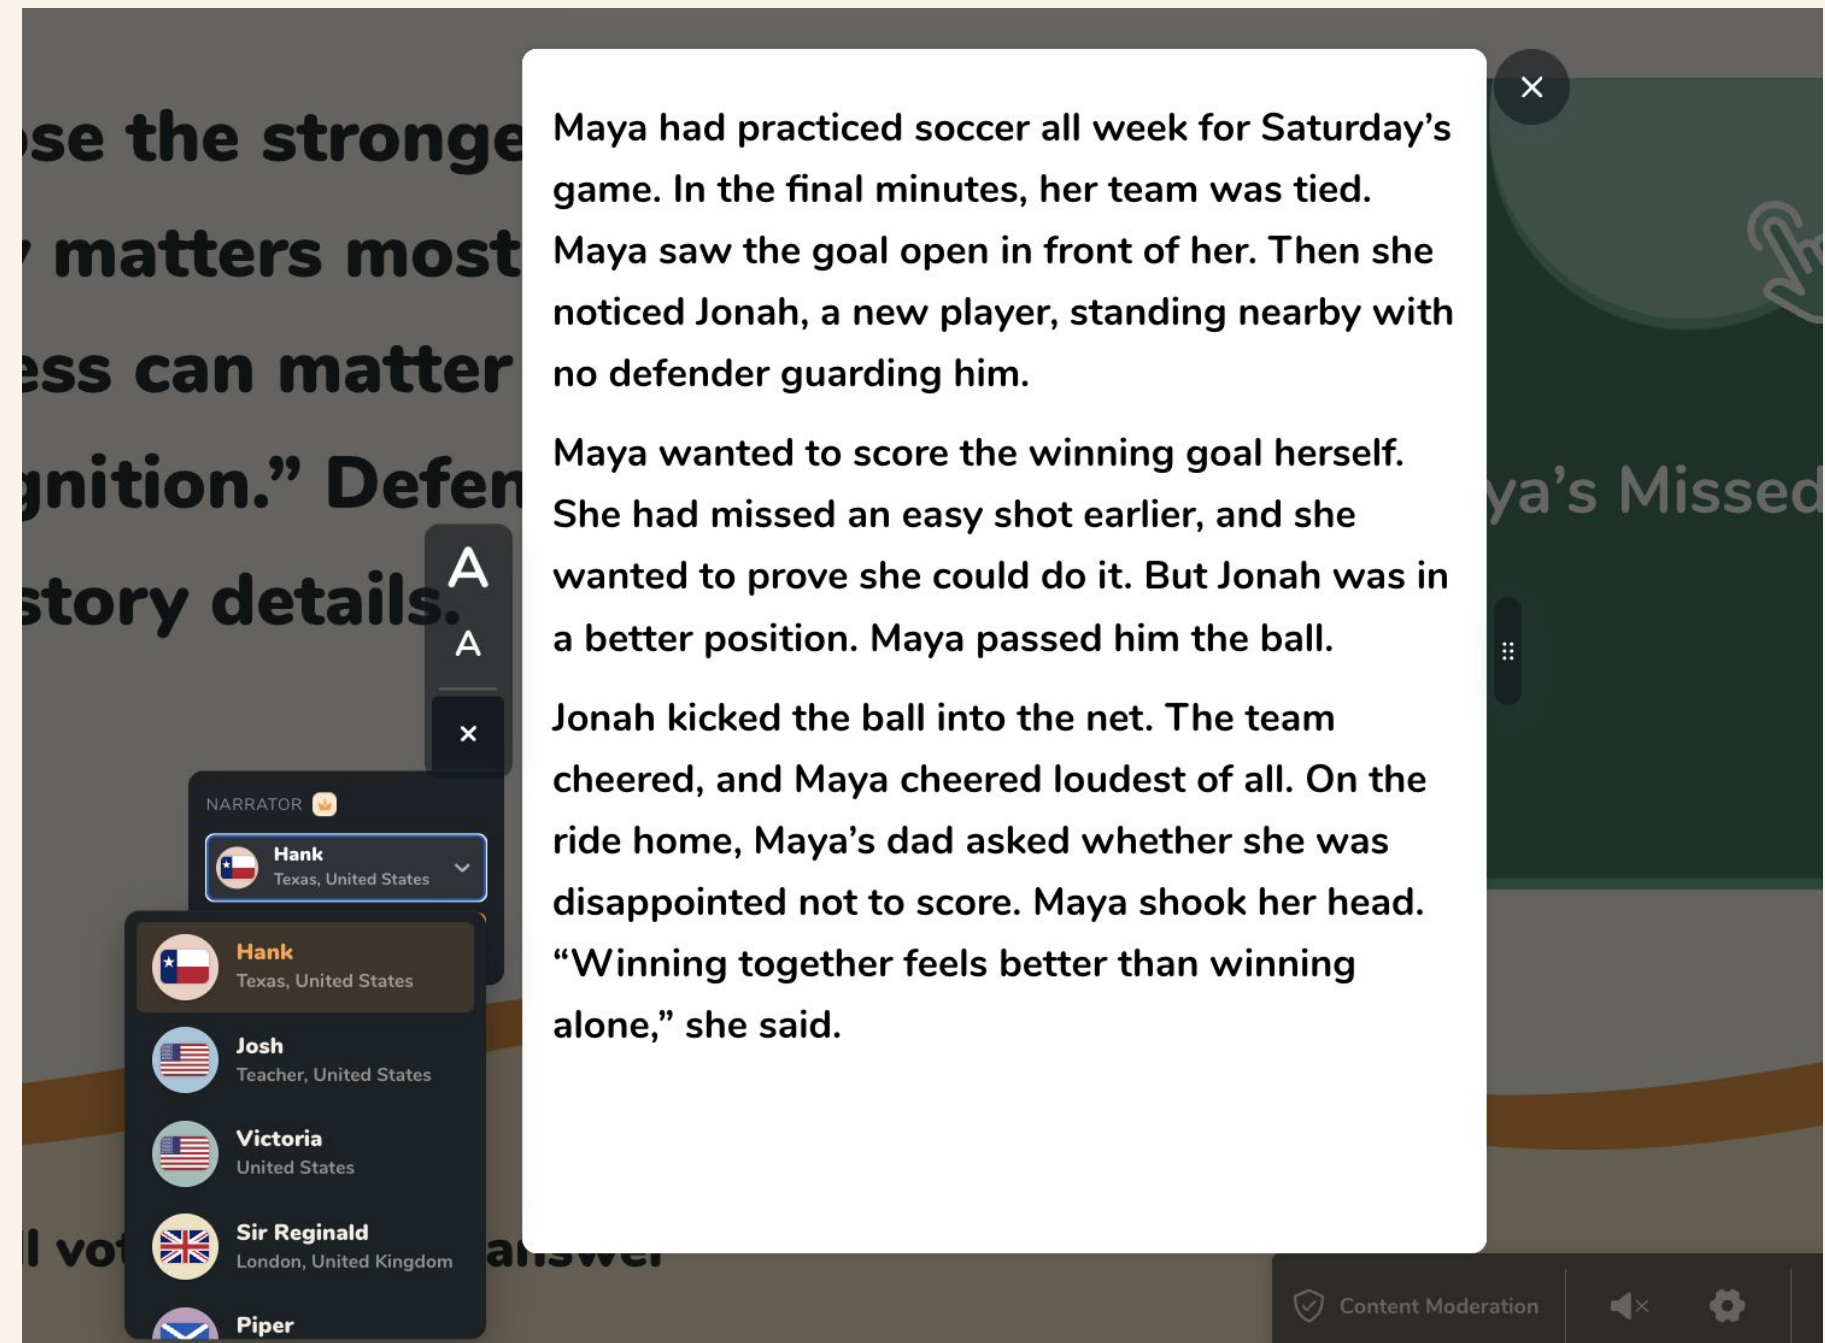

Choose the music theme that plays by default when hosting this lesson.

Funky

Read aloud, in more voices

Read passages aloud to your class
- now with a choice of accents!

- Pick the voice and accent that fit your classroom
- Choose American, British, or Australian accents!
- Words are highlighted as they are read aloud, helping students keep track

Multiple Choice Questions

A proper multiple choice activity, with correct answers (unlike polls) - and a class-level view of who picked what.

- Mark the correct option and reveal it when you're ready
- See a color-coded distribution of answers as students respond
- Answer explanations for both correct and incorrect answers

Curipod

Which detail best shows that the waves...

7

A The sound rattled his ribs.

0 B Gulls sang a gentle tune.

0 C Sand felt cool to him.

0 D The kite sat very still.

INCORRECT

B Gulls sang a gentle tune.

EXPLANATION

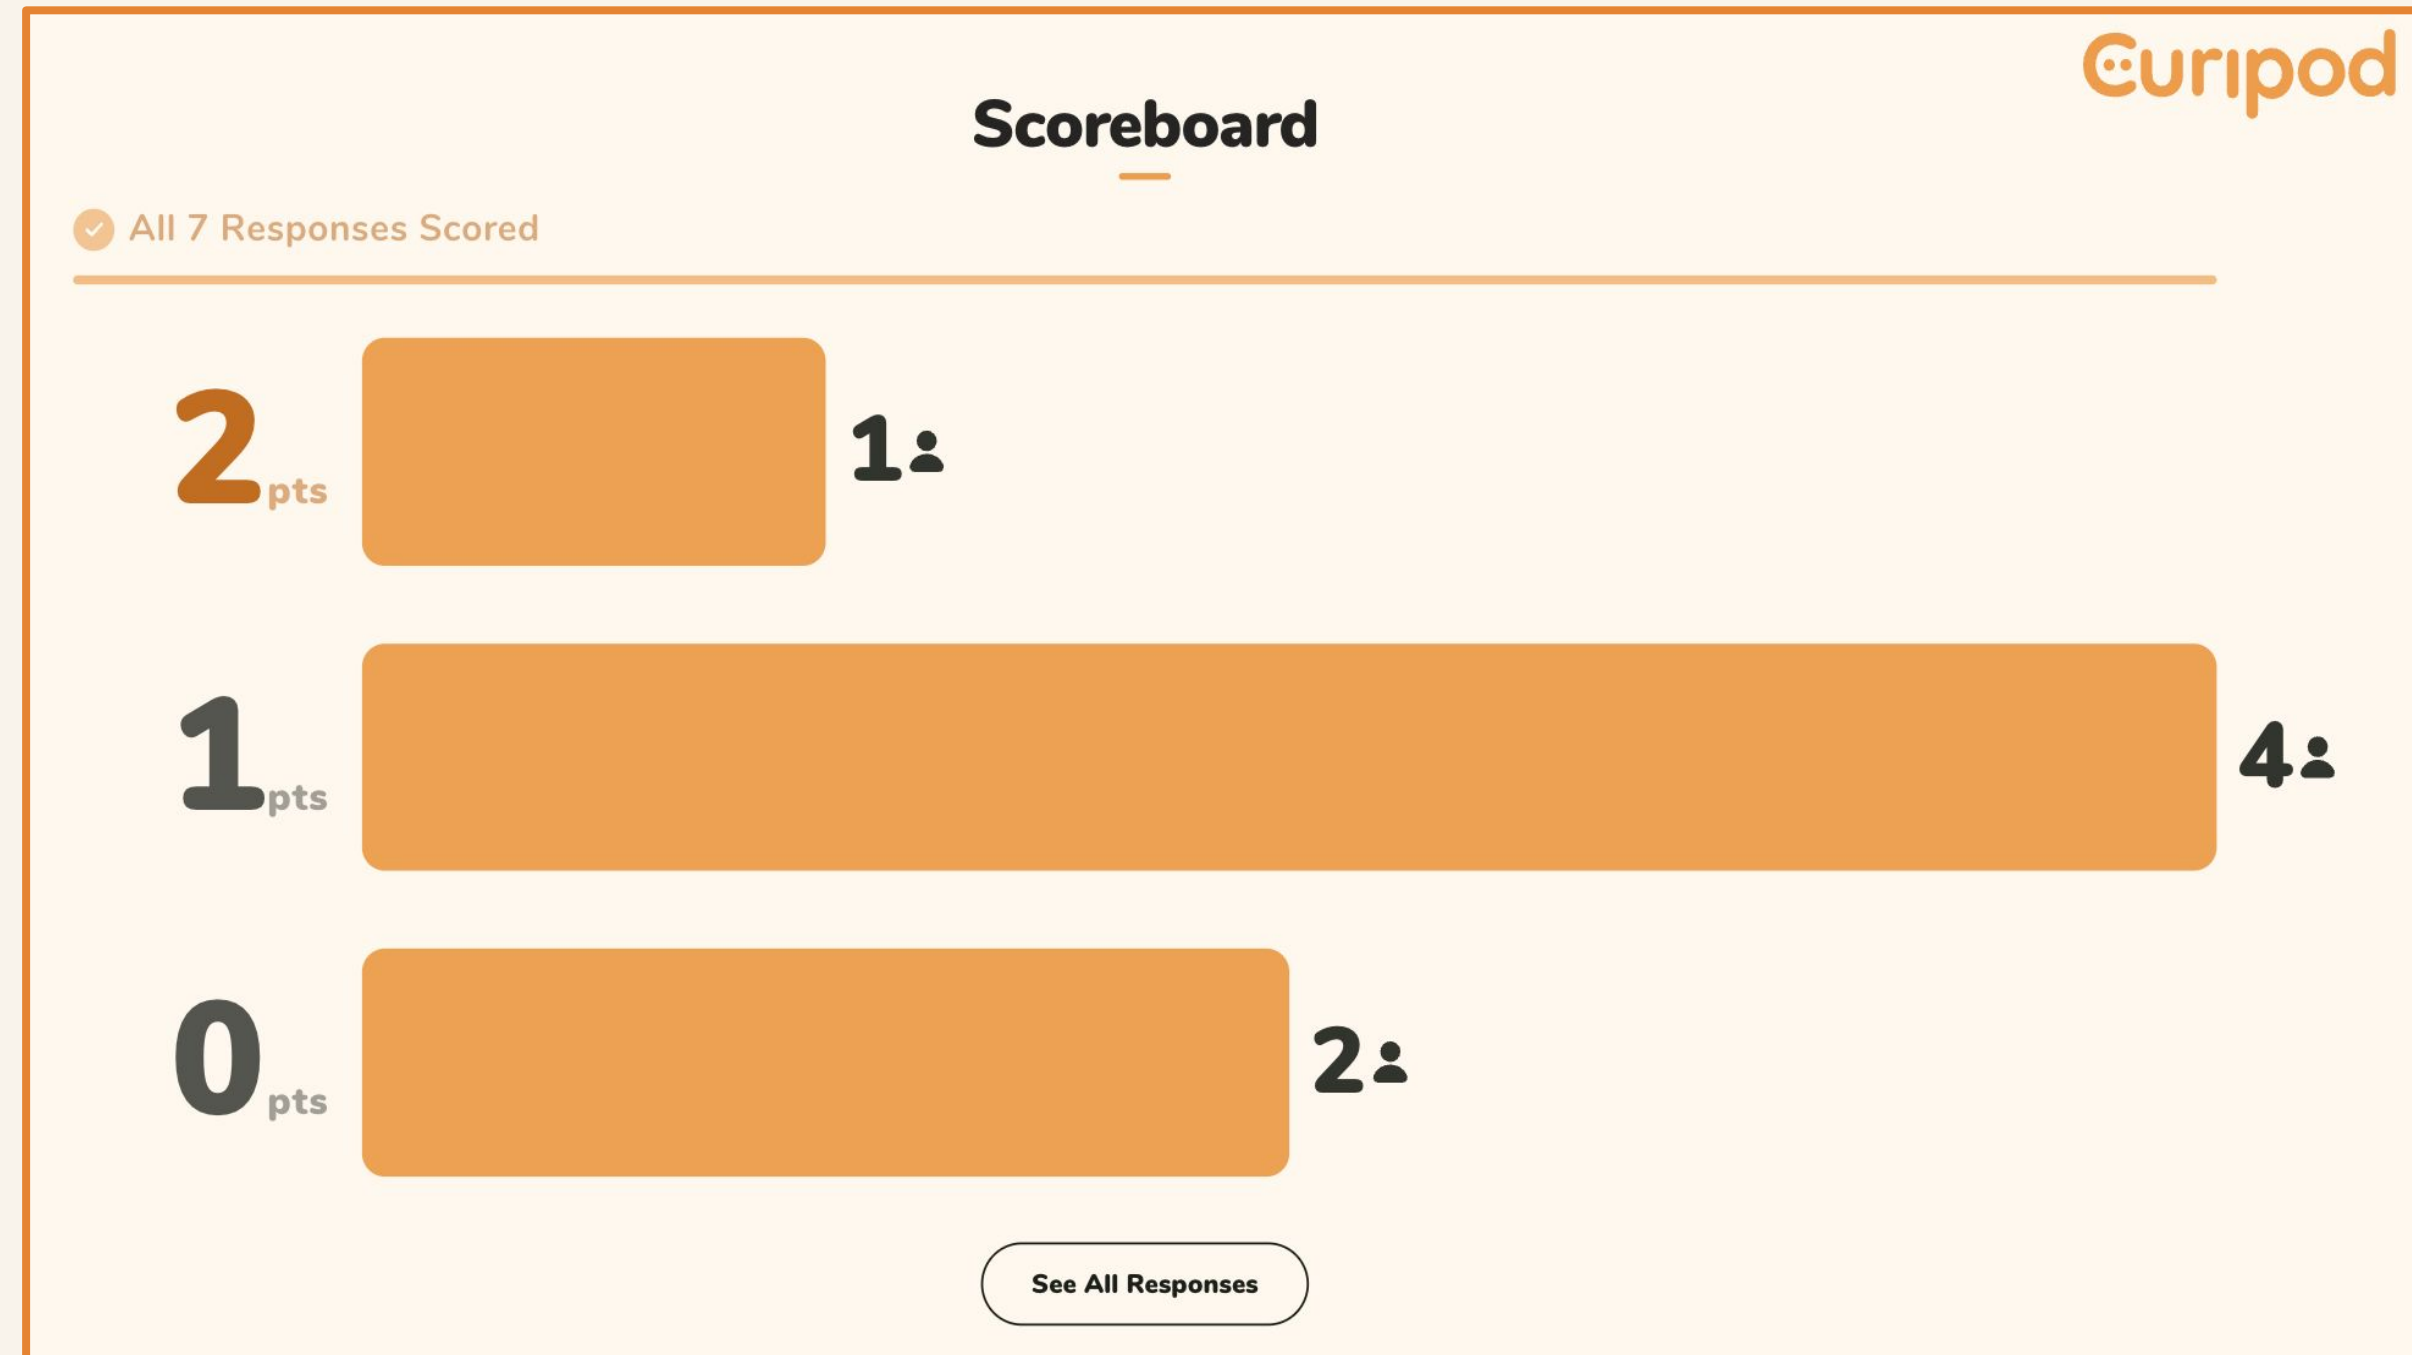

Passage only says gulls circle and draw loops; no gentle song.

Got it

Scoreboard for test prep responses

Instant understanding of where
your students are on the rubric.

- Compare score distribution from
the first to the second attempt
- Show all responses to spotlight
and discuss responses
- Turn the revision round into
something students want to win

Aligning Curipod with your curriculum

Curipod should fit the scope and sequence you already teach — not sit beside it.

Phonics lessons with built-in alignment

In-product alignment with Bluebonnet, Savvas, HMH and more (Texas only)

Alignment

Phonics lessons, pre-aligned

Grab-and-go phonics practice that follows your scope and sequence.

- Pick the unit/week and get aligned practice in moments
- Easy to adapt for shared devices
- All-age themes work with developing readers in upper grades, too

Alignment

Texas only

Curriculum alignment, in product

Tell Curipod which curriculum you teach and lessons come back matched to its units.

- Bluebonnet, Savvas and HMH selectable in product + TEKS
- Pick a unit and lesson rather than describing it in a prompt
- Keeps Curipod inside the scope and sequence teachers follow
